Case 10 Back pain relieved only by aspirin 27
Case 11 A persistent cough in an ex-smoker 31
Case 12 A schoolmaster with progressive breathlessness 35
Case 13 Numb right arm 39
Case 14 Jaundice following cholecystectomy 41
Case 15 Infant with clicking hips 45
Case 16 Painful wrist after falling 47
Case 17 Constipation in woman with ovarian tumour 49
Case 18 Thirty-year-old man with headache 51
Case 19 Persistent cough 55
Case 20 Chest pain and dyspnoea 59
Case 21 Young man with neck swelling 63
Case 22 Collapse and possible seizure 67
Case 23 Premature neonate with abdominal distension 71
Case 24 Young child with painful arm 75
Case 25 Acute epigastric pain 79
Case 26 Man with atypical chest pain 83
Case 27 Young woman with shortness of breath and chest pain 85
Case 28 Chest discomfort and dyspnoea 87
Case 29 Skateboarder with a painful foot 91
Case 30 Left-sided loin pain 93
Case 31 Unable to bear weight after a cycling accident 97
Case 32 Strange bone appearance after falling 99
Case 33 Lower back pain 103
Case 34 Vomiting baby boy 105
Case 35 Painless haematuria 107
Case 36 Sudden onset weakness in an 80-year-old woman 109
Case 37 Young man with ankle pain 111
Case 38 Painful shoulder 113
Case 39 Chest pain after falling 117
Case 40 Swelling of the big toe 119
Case 41 A young man with progressive dyspnoea on exertion 121
Case 42 Pain on deep inspiration
Case 43 An elbow injury
Case 44 Pain in the hand following a punching injury
Case 45 A fall on the hand and pain in the wrist
Case 46 Shortness of breath and pleuritic chest pain
Case 47 A new arrival with cough and a fever
Case 48 A seatbelt injury
Case 49 A device in the pelvis
Case 50 A cardiac abnormality
Case 51 A mirror image
Case 52 A distended and painful abdomen
Case 53 Bloody sputum and weight loss
Case 54 A soft fluctuant lump
Case 55 Abdominal distension and shifting dullness
Case 56 A painful hand
Case 57 A retired construction worker with a cough
Case 58 Distended abdomen and unable to pass gas
Case 59 Torrential haematemesis
Case 60 An incidental finding on chest radiograph
Case 61 A worried nurse in intensive care
Case 62 Young man with abdominal pain
Case 63 Skin plaques and achy hands
Case 64 Teaching sport can be a headache at times
Case 65 A chesty infant
Case 66 Difficulty in swallowing
Case 67 Pregnant woman with vomiting
Case 68 Infant with a head injury
Case 69 Abdominal distension in a woman with ovarian cancer
Case 70 A woman with a breast lump
Case 71 A rising creatinine
Case 72 Neck pain after falling
Case 73 A young man with back pain
Case 74 A child with an injury
Case 75 A renal tract abnormality
Case 76 Shooting leg pain following lifting
Case 77 A chronic productive cough
Case 78 General fatigue and weakness
Case 79 A cervical spine injury following a horse riding accident

Case 96  Chest wall swelling and a pleural effusion  
Case 97  Chest wall deformity in a pacemaker patient  
Case 98  Sudden onset back pain in a 72-year-old woman  
Case 99  Constipation and colicky abdominal pain  
Case 100  An ankle injury

Index
ACKNOWLEDGEMENTS

The authors would like to thank the following people for their help in the preparation of the text and illustrations: Dr Elisa Perry (consultant radiologist at Guys’ and St Thomas’ Hospital), Dr Russel Houghton (consultant radiologist at Guys’ and St Thomas’ Hospital), Dr Haran Jogeesvaran (consultant radiologist at Guys’ and St Thomas’ Hospital), Dr Andrew McGrath (consultant interventional radiologist at Guys’ and St Thomas’ Hospital), Dr H.K. Mohan (consultant nuclear medicine physician at Guys’ and St Thomas’ Hospital) and Dr David Howlett (consultant radiologist at Eastbourne Hospital). Many of the images were produced during the authors’ time as registrars at Guy’s and St Thomas’ Hospital. Without the support of the hospital in allowing the use of anonymized images this book would not have been possible.
